The Omnipresent All-Seeing Eye

Security All Over The Place

Crime can strike anytime, even within the supposed safety of your office. Is your business prepared? To keep your peace of mind, you'll need a sentry that can watch over the premises on a 24/7 basis. The **AirLive POE-200CAM** dome IP camera is made for such a purpose, allowing you to see everything that transpires at your site via a networked computer or even a mobile phone while you're away. **Price: PhP 19,950**

» 180-264V AC Input
» 47-63Hz Input Frequency
» 80% High Efficiency
» 0° To +50° Operating Temperature
» 160 x 150 x 86mm

The Silent Worker
Getting The Job Done Quietly

Huntkey's APFC power supply unit lineup is meant for all the "silence seekers" out there. One example is the **Universal APFC 600 (HK600-53AP)**, which is targeted at the workstations and white box servers that we normally see in hushed office environments. This PSU features Huntkey's Intelligent Thermal Fan Control Technology so you're ensured of cool, long-lasting performance. **Price: TBC**

Orbital PC
You Link To Space Age TV Programming

Hook up the **KWorld PCI DVB-S TV Card Pro** onto your PC and say goodbye to remote control wrestling nights with the rest of your housemates! With this add-on, you can sit back, relax, and enjoy your TV fix on your very own desktop computer. You can even switch channels the way you're used to with the included remote control. **Price: TBC**

» PCI Interface
» 75Ω Satellite Input
» 950-2150 MHz Tuning Range
» S-Video and Audio Input
» 44-Key Infrared Remote Control
» 132 x 64mm
